@phylogenomics Always found that site amusing  
because some of its examples suffer logical fallacies  
elsewhere on the same page. :)

Don't feel the need to read all the things, treat social  
media like a stream you dip your feet into

@Sponch2 @mammals\_suck yes otherwise you'll be  
sucked into the current and forever lost.

Everyone at the [#UCDadvance](#) is doing a great job of tweeting the discussion that I don't have much to add!

Consistency is key with blogging/tweeting to build an audience @Dr\_Bik

**cAMP Öther**

@CampOther

@Sponch2 @Dr\_Bik I have been more consistent a tweeter than a blogger. Tweeting is like eating potato chips. I confess - can't stop at one.
